by ARTHUR BRISBANE

England Goes Borrowing.
Airplane Versus Mosquito.
Those Surprising Russians.
Marvelous Cow Machine.

The Bank of England, fearful of too great a drop in England's gold reserve, seeks from France a loan of one billion dollars.

Friends of France will be delighted to hear that the great Republic is in a position to lend so much. And the French financial situation may encourage those that are urging Uncle Sam to wipe out the debt owed by France on the ground that France can't afford to pay.

In that connection, one fact, stated clearly by President Hoover should not be forgotten, namely, that the United States has already forgiven every dollar of the French debt contracted during the war.

The only sums that are to be paid are debts contracted after the war. President Hoover made this statement publicly, and was surprised, perhaps, to find that not a newspaper in France printed it.

Experiments by Dr. Glaberry, of the New Jersey Agricultural Experiment Station, show that mosquitoes in breeding places, hitherto considered safe, can be attacked and destroyed by airplane.

The pilot, flying low over the breeding swamps, spreads a spray of poison powder that fast destroys the new mosquito, before it starts flying.

The invention of railroad trains spread mosquitoes all over the United States. The airplane invention may remedy the evil.

It should be used on the marshes around Venice and, doubtless, Mussolini will see to it. Whoever has visited Venice in Summer really knows mosquitoes.

Paul Mazur, of the able firm of Lehman Brothers, says the five day week should be adopted universally to concentrate working, selling and buying in five days, giving everybody two days to spend what they earn, in health and efficiency. Such a plan, according to Mr. Mazur, would encourage spending and increase buying at least 20 per cent.

Business men, expecting "Russia's experiment" to fail fast, are startled by news items that the Soviets have Cyrus H. K. Curtis picks up, right in the heart of Russia.

He finds ten thousand workmen building a gigantic automobile factory near Nijny-Novgorod. American engineers are building a model city around the huge factory, and Russia expects to turn out 140,000 cars a year by 1932.

Stalin's engineers actually talk of building 5,000,000 cars a year later on. Russia apparently doesn't agree with the suicidal theory that its experiment is already a failure.

When Mussolini encounters a problem, he does something.

Italy faces a deficit of $36,450,000. Mussolini cuts all official salaries 12 per cent. He cuts Cabinet Ministers at the top and all the way down, army and navy officers, school teachers, police clerks. That would not be popular here, and it isn't necessary.

But our national government and big cities might well try cutting off employees that accumulate as barnacles accumulate on a ship.

Farmers are interested in the "cultivator" or "cow-milking-revolving table" used by the Walker Gordon Company in New Jersey. The cow walks onto a big table, which revolves slowly and continuously like a moving staircase. Entering her stall on the table, the cow is washed clean and milked dry by machinery in twelve minutes, walks off the table, which holds fifty cows at a time, and goes back to her business of eating food and turning it into milk.

That is applying industrial methods to farming. Groups of farmers could own such a table co-operatively, producing certified milk much more cheaply than the ordinary germ laden milk can be produced by the farmer moving his milking stool from cow to cow in a dirty, dusty barn.

Mr. Lozze, head of the Farm Board, an able business man, sacrificing his own affairs for the public service, admits that the Government now holds 76,000,000 bushels of wheat.

The Government is supposed to have bought the millions of bushels to avert a crash in prices.

The question is, would such buying avert or precipitate a crash.

The Government, buying to prevent a crash, might make wheat severe believe that a crash is coming, and cause them to sell while the Government is still willing to buy.

The United States has been using taxpayers' money to buy wheat and store it away. Just how that will end is something to think, and perhaps worry, about.

One plan would be to send the accumulations of wheat to the starving Chinese and let them eat it, thus getting rid of the surplus and storing up national credit in heaven.

But, while we can afford the billions for nations fighting, we could not afford 76,000,000 bushels of wheat for people starving.

Reading Subject At P.-T.-A Meeting

Difficulties in Upper Grades Result of Poor Reading Miss Pierson Says

The necessity of rapid and efficient reading in present day civilization were stressed by Miss Pierson, of Farmville State Teachers College in a talk before the Parent-Teacher Association last Friday evening in the Auditorium.

Practically all difficulties in the upper grades, Miss Pierson said, result from wrong methods of teaching reading in the first grade. She also discussed the need of a library for the lower grades, so the child may develop speed by reading widely.

Discussion of the need of a library for the primary grades was taken up by Miss Eddie Hardy, who asked the L. Crawley, chairman, to appoint a committe of reading for the elementary grades. Superintendent Jerry A. Burke, Miss Edie Hardy, and Miss Elva Stratton were named on this committe.

Papers were read and commented on by B. G. Anderson, whose topic was "Our School;" Mrs. H. M. Burger, "Who Is to Blame for Disobedient Children", and Miss Nola Burkey, "Leisure and Music".

Reports of the health, visitation, membership, library and music committees were heard at the meeting. Mrs. Charles Moses, of the library committee suggested that a complete set of Shakespeare be obtained for the library and the seating capacity be increased. She reported that seventy-five books would be soon added to the collection, and there was still a eleven dollar payment to meet.

Miss Kate O'Brien, also of this committee, reported a total of approximately 200 books now in the library.

An eight dollar clearance on the Dick Lewis matinee sponsored by the Parent-Teacher Association and six dollars on "Sweetie" were reported.

Miss Mary Booker, recently appointed supervisor of music in the Appomattox and Pamplin Schools, played a violin solo accompanied by Miss Kate Franklin. Announcement was made that tests and examinations will be the topic of discussion at the next meeting.

Evergreen Churches Have Services

The first services to be held in the Baptist Churches of the Evergreen community since October, will be preached next Sunday by the Rev. J. D. Keister, of Chatham, according to C. T. Cawthorn.

The morning service will be held at Central Church at 11 o'clock. Services will be held at Central at 3 o'clock and at Hollywood at 7 o'clock.

Plans are under way now to obtain a permanent pastor for this field by the first of the year. The Rev. T. E. Goad formerly had this field.

Rummage is Solicited

The rummage sale committee of the Associated Charities has issued a call for every thing from discarded automobiles to old rubber shoes and tin foil. Old clothes, bedding, furniture, carpets, rugs, draperies, curtains, household articles, papers, magazines, books scrap iron, farm implements, rubber shoes, tin foil, and automobiles in whole or part are all solicited by the committee.

Those who have any rummage to give to the organization are asked to leave it at the home of Miss Lelia Inge.

Conservation Urged

The movement of the Garden Club of Virginia to conserve laurel, holly and running cedar is being brought to the attention of children in county schools by Superintendent Jerry A. Burke. The Garden Club suggests that substitutes be used this Christmas for the three plants since their existence is threatened by abuse.

Local Cold Wave Follows General Drop of Mercury

Appomattox with the mercury down to 34 degress Wednesday afternoon and a slight fall of snowflakes in the morning and a touch of the cold wave which the day before swept the Middle West and North, leaving snowdrifts as far East as Pennsylvania for snowplows to buck.

Winter found its first victim in the South in Kentucky, where a man froze to death Tuesday, according to an Associated Press dispatches. A fifty-one-mile-an-hour gale howled across Nebraska blowing down trees, signs and small buildings. In South Dakota, sleet slain pheasants were picked up by the wagon loads. Many communities in the Middle West, where the mercury had shifted down to zero faced a isolation as the snow piled up.

The high temperature at Lynchburg Tuesday, was 38 degrees and the low, 26 degrees. Fair weather with continued cold was prophesied for Thanksgiving.

Book Week Observed In Pamplin Schools

National book week was observed at Pamplin High School with a program given by the junior class in an assembly meeting. Famous works of literature and fictional characters were reviewed.

Mrs. W. R. Brightwell was hostess to the October meeting of the W. C. T. U. Medical temperance was the topic for the meeting, and Mrs. Robert Fore was the appointed leader. Following the business session and program a social hour was enjoyed and the hostess served refreshments.

Miss Irene Pugh, of Lynchburg, who recently has returned from a trip abroad, will spend the week-end with Mr. and Mrs T. R Pugh. Miss Pugh will give an account of the Passion Play which she saw at Oberammergau to a few friends and acquaintances.

Mrs. Tom Dickerson entertained the faculty of Pamplin High School at a dinner party Thursday evening.

Alston Davis, of Richmond, is spending a vacation period in Pamplin.

Mary Brightwell, of State Teachers College, Farmville, Jack Brightwell and Mr. and Mrs. Grover Brightwell of Lynchburg, were guests Sunday in the home of Mr .and Mrs. W. R. Brightwell.

Mrs. E. E. McClenny has returned from Pulaski, where she visited her son, Kenneth and her sister, Miss Lizzie Harris.

Mr. and Mrs. E. B. Mattox and two small daughters, of Lynchburg, spent the week-end with Mrs. R. L. Franklin.

Mrs. Henry Leroy with her infant son, of Elizabeth City, N. C., is the guest of her parents, Mr. and Mrs. E. D. Carwile.

J. C. Martin, of Kansas City, joined his wife and small son at Pamplin this week and the three will visit Mr. and Mrs. P. H. Estes through the Thanks giving season.

Hi-Y Clears $36 On Boxing Match

The Hi-Y Club of the Appomattox High School cleared thirty-six dollars on the boxing and wrestling match held at the Auditorium last Saturday evening.

H. Shirey was knocked out by J. Langran in the first round. C. Scruggs knocked B. Cole out in the first round. Ray Martin, of Lynchburg, knocked Sam Lougee out in the second round.

The wrestling match between W. T. Smith and B. Cole was called off because Cole had a sprained thumb. Austin Carters, of Roanoke, was the referee. J. W. Food, Herbert Pulliam and Ned Hancock were the judges.

Miss Myrtle Blackwell, of Lynchburg, was a recent guest of Mr. and Mrs. F. L. Martin.

Pollard Proclaims Thanksgiving Holiday

Governor John Garland Pollard took cognizance of the drought and unemployment in his Thanksgiving proclamation issued yesterday. The proclamation follws:

"In accordance with an ancient custom established by our forefathers, I, John Garland Pollard, Governor of the Commonwealth of Virginia, do hereby proclaim a a public holiday the day appointed by the President of the United State, Thursday, November 27, 1930, as Thanksgiving Day."

"And bespeak its observance by all of our citizens each in his own way in accordance with the dictates of his own conscience and do recommend that in this hour when so many worthy among us have been visited by misfortune, we characterize the day with words of good cheer and deeds of kindness and charity to the end that the less fortunate may share in the blessings of those who are prospering.

"Given under my hand, and under the lesser seal of the Commonwealth, at Richmond, this twenty-fifth day of November in the year of our Lord one thousand nine hundred and thirty, and in the one hundred and fifty-fifth year of the Commonwealth."

$30,000 Allocated To Bent Creek Road

District Receives $1,256,000 To Be Used For 17 Road Projects

An appropriation of $30,000 has been made for Route 307, from Appomattox to Bent Creek, according to the report of the State Highway Commission, on the final allocation of funds, confirmed Nov. 14.

The Lynchburg district according to the report receives $1,256,000 to be used in seventeen road projects. Besides the appropriation for the Road from Appomattox to Bent Creek, the following routes are covered by the allocation: 306, Route 13 to Vera, $50,000; 13, Bent Creek east, $100,000; 20, Evergreen to Burkeville, $120,000; 20, Keysville to Charlotte C. H., $30,000; 32, Willis River for bridge and approaches, $30,000; 15, Amherst east, $320,000; 302, Halifax to Pittsylvania County line, $50,000; 45, Concord to Route 14, $50,000; 31, Route 10 north, $75,000; 13, Top Blue Ridge Mt. east, $65,000; 45, Cartersville to Route 13, $30,000; 304, Cullen to Charlottesville Court House, $15,000; 20, Gretna east, $50,000; 18, Colleen South, $125,000; 43, Campbell County line to Route 14, $60,000; 20, From Route 18 west, $20,000.

Two more projects in the Lynchburg district are included in this report under the Million Dollar Gap Fund. Route 18 from Lynchburg to Amherst is to receive $120,000 and from Lynchburg to Rustburg, $150,000 is to be expended.

The sums received by other districts are as follows: Bristol, $1,260,000; Salem, $1,403,000; Richmond $1,466,000; Suffold, $1,440,000; Fredericksburg, $734,000; Culpepper, $152,000 and Staunton, $1,290,000.

Red Cross Membership Drive Continues Until After December 3

The Red Cross Roll Call, with only a few days left until Dec. 3 when the campaign is short of its desired quota, but the drive is still being conducted with active enthusiasm by the various chairmen.

During the past week, letters have been sent to every teacher in the county, and the Rev W. M. Thompson, chairman of publicity for the drive, has communicated with every minister.

A membership was received today from Congressman Harry St. George Tucker, who sent five dollars to the local chapter in response to a letter from the chairman.

Miss Eula May Burke in discussing the value of the Red Cross to this community, has cited several instances of the work done in the history of the local chapter. "Last Christmas," she says, "a little girl, so crippled she had not been able to lie down to sleep in three years, was sent to Richmond for treatment by the Red Cross. The Red Cross was asked for free treatment for the child, and by the usual subscription raised the funds to send the child.

"Not long ago, a mother of ten children, who was herself ill, and whose husband was out of work, required an emergency operation immediately. The Red Cross committee passed on the case, and in less than two hours, the doctors had the money to carry the case through."

Another case cited by Miss Burke, is that of a wounded veteran, who was found to have an active case of tuberculosis in the lung gassed during the war. Not knowing that he had failed to file for compensation in the required time, the Red Cross worked on his case, and finally obtained $600 of his back pay and $72 a month. The committee also saw that his money was used for the sleeping porch and care which the man's health needed. Every effort has been made by this committee in the behalf of every soldier, who has applied for compensation, Miss Burke said.

Mr. and Mrs. J. W. Scott, of New York City, Walter Durham, of Richmond, W. C. McGill, of Greensgoro, N. C., are nonresidents of the county, who have joined the local chapter.

To Be Tried For Non-support

J. G. Woodward, who was tried before Judge Brown on the charge of non-support of his children, appealed to the circuit court, and his case will be heard Dec. 3.

Successful Free Clinic Conducted

Pronounced One of Best in Virginia by Randolph, State Specialist

The Free Chest Clinic, held at the courthouse a week ago last Tuesday, was pronounced by Dr. William Randolph, tubercular specialist sent by the state board of health, as one of the best clinics held in Virginia.

Twenty-four white people and four colored took advantage of the clinic and had free examinations. Of this number two were found to have arrested cases of tuberculosis, and five had symtoms which indicated tuberculosis. No sanitorium cases were found among those examined.

Mrs. W. S. Morton, Miss Marguerite L. Coppage, South side Health District nurse, Mrs. Lucy, district nurse, and Randolph, with the co-operation of Miss Eula May Burke chairman of the county health association, Mrs. S. L. Ferguson, Mrs. Arthur Irby, F. H. Hawley, and Dr. Christian had charge of the clinic. Ministers and members of the committee in the different communities also helped.

Rebecca Harvey Has Part in School Play

Miss Rebecca Harvey, daughter of Mrs. Maggie Harvey, took part in "The Queen of Hearts", which was presented by the members of the freshman class at the Sargent School of Physical Education of Boston University last Saturday evening.

Tap, Toe, oriental and choru dancers and amateur acteasas all from the ranks of the freshman class appeared in the play. Miss Harvey was also one of the ushers.

Singular Story Of Lee's Mother Told At U. D. C. Meeting

An incident in the life of Robert E. Lee's mother, not found in histories, taken from the scrapbook of Senator S. L. Ferguson, was read by Mrs. N. A. Wagers at the meeting of the United Daughters of the Confederacy last Thursday afternoon in the High School Dormitory.

Lee's mother, according to papers in the scrapbook, was believed dead for seven days, and her corpse laid to rest in the mausoleum at Stratford. fifteen months before Robert E. Lee was born.

"While it is a strange story about a member of one of the most famous families in all America, and it is not quite closed in history, it is unquestionably authentic," Mrs. Wagers said. "It is from a record of it in Tebb and Vollum in the library of Surgeon General Army Medical Museum, Washington, D. C. and Mrs. Charlie H. Stuart, mother of the present master of Stratford Hall, knew the story."

"Ann Lee was the daughter of Charles Carter, of Powhatan. Her first husband was a cousin named Carter. When he died she married Light Horse Harry Lee, the dashing cavalry leader of the Revolution. She was in poor health for some time before 1805 says Colonel Wakefield Lee, being subject to some sort of fainting spell.

"There were four doctors present at her bedside when she died in October, 1805, and all of them agreed she was dead. For four days she lay in state in the Lee mansion in a coffin with a glass lid over the casket. Then it case was removed to the Lee mausoleum.

"A constant stream of mourners gazed at the supposedly dead woman, but none detected a sign of life. On the seventh day, as the old sexton was sweeping up, he heard a faraway voice calling "Help! Help!" So faint was the first cry that he felt sure it was his imagination, but after a second call, somewhat more clear, he knelt outside in the sunlight, he laughed at his own fears, and returned to his sweeping. As he took up some .belated flowers to strew them on the coffin, he again heard the voice Looking down at the face of Mrs. Lee, he saw the lips quiver, and her eyelids struggle. Frightened though he was, the old man retained enough sense to remove the lid before he went for help. Mrs. Lee was taken to the manor house and soon restored to health. She lived twenty-one years after this incident."

Few of the members had heard of the story which was revealed in Mrs. Wagers's paper, though many of the older ones recalled the facts as they heard them when they were young.

Mrs. S. N. Thornton, and Miss Elaine McDearmon were hostesses of the meeting.

P. T. A. Presents Movie

"The Virginian" will be presented at the Auditorium Friday and Saturday in the series of educational movies brought here by the Parent-Teachers Association. The movie is taken from Owen Wister's novel of the same name. Proceeds from this show will be used by the sixth and seventl grades at the Appomattox School to buy books.

Entertains At Bridge

Miss Verta Smith entertained seven tables of bridge last Thursday evening at the Jordana Cabin. High honors were won by Miss Flora Lawson and Robert Fox Miss Lula May Burke and Russel Gimbert took the low prizes.

Hi-Y Meets

The Rev. E. T. Lewis talked on "Our Responsibility Toward Others" at the regular meeting of the Hi-Y Club last Wednesday night. Pins were distrubuted to the members at this meeting.

W. T. Smith is spending several days in Richmond.

Central Agency Of Charity Organized

Series of Sales Planned to Raise Funds For Carrying Out Program

A central agency of charity to prevent duplication of aid to families in distress was organized at the Union Service of Appomattox Churches, held at the Presbyterian Church last Sunday evening.

A series of bazaars, rummage, bake and candy sales to be given at the old homestead of Miss Lelia Inge were planned to raise funds for the Associated Charities organization which at present has no funds. The first of these sales will be held Saturday, Dec. 6.

Dr. Charles F. James was elected president of the agency. Other officers were C. T. Moses, B. G. Anderson, and Mrs. A. P. Inge, vice-presidents; and Miss Emma Mc Gann, secretary-treasurer. These officers will serve as an executive committee.

Purpose of Agency

The purpose of the organization, as stated in the constitution is to co-relate and coordinate the charitable activities in the vicinity of Appomattox, to prevent over-lapping, to curtail the number of appeals, and to provide in an intelligent way for the actual needs of the community.

Committees appointed at the meeting are as follows: Case committee, Mrs. C. F. James, Mrs. H. M. Burge, and Mrs. L. E. Smith; Finance, Mrs. S. L. Ferguson, Mrs. J. A. Burke, and Mrs. Russel Gimbert; Employment, P. W. Coleman.

Additional Committees

At a meeting of the finance committee, Monday, the following additional committees were appointed; Publicity, Mrs. Dan Henderson, chairman, Miss Catherine Gills, Miss Jula Mae Burke, Mrs. M. P. Porter, and Miss Vivien Chesney; nutrition sale, F. W. Harvey, chairman, C. S. McDearmon, H. Y. Spencer, C. T. Moses, and R. B. Hudgins; Bazaar, Mrs. Morton Rosser, chairman, Mrs. W. R. Reynolds, Miss Lucy Caldwell-Smith, Miss Janie McKinney, Miss Nola Burkey, Mrs. Lottie Bledsoe, Mrs. David Conner, Mrs. S. W. Sears, and Miss Louise Gills; Entertainment, Miss Verta Smith, chairman, Miss Emily Harvey, Miss Louise Gills, Mrs. L. Crawley, Mrs. N. E. Wagers, and Mrs. W. L. Ould; Rummage sale, Mrs. Arthur Irby, chairman, Mrs. C. F. James, Mrs. Thelma Cawthorn, and Mrs. C. T. Moses; Bake sale, Mrs. R. B. Caldwell, chairman, Mrs. F. W. McKinney, Mrs W. L. Brown; Candy, Mrs. Oscar Cole, chairman, Miss Jesaylan Hancock, Mrs. Sam Ferguson, Jr., and Mrs. Sam Evans.

Charles O'Brien Is Given High Rating

Rating of Private Charles O'Brien, son of Mrs. R. E. O'Brien, of Appomattox, as a first class gunner, has been announced at regimental headquarters of the 64th Coast Artillery, Fort Shafter, T. H., where Private O'Brien is now stationed on foreign service.

Private O'Brien's rating is based on personal efficiency, according to a press release from the Public Relations officer, Fort Shafter.

The 64th Coast Artillery, of which Private O'Brien is a member in Battery B, is the anti-aircraft regiment of Hawaii, and the regiment also forms the guards of honor for ambassadors, generals, governors, consuls, and other notables visiting Honolulu. Private O'Brien arrived in Honolulu Oct. 13, 1930.

In observance of Thanksgiving, The Times Virginian was published on Wednesday instead of Thursday, the usual day for publication. Rural subscribers will receive their papers on Friday as usual since there will be no rural delivery on Thanksgiving Day.

Watson—O'Brien

Mr. Joseph E. O'Brien, of Appomattox and Miss Maggie Virginia Watson were married in Lynchburg this week.

S. Roland Gray, Interior and Consulting Decorator

Located in Rivermont Apartments, just at the end of Riverside Bridge, Mr. Gray is prepared to render an excellent service in Decoration of Homes, Hotels, Apartments, Tea Rooms and Churches, and is authority in this part of the state on Wall Paper, Curtains, Draperies, Lamp Shades, Modern, Period, and Antique Furniture and all kinds of Early English and Dutch Pewter and Staffordshina and glassware.

With the rapid advance in the beautification and comfort of the modern home the question of draperies has been answered everywhere with one acclaim that "We all must have them."

Mr. Gray is a creator in the drapery world and his designs have been used far and wide over the country. If you want something unique for your place you will find that he will be able to furnish the idea as well as the goods. You will find the prices of the most pleasing character for first class work.

He places all the draperies and thus renders a complete service. All you have to do is to select what you want and leave the rest and he will make your home a beautiful place. All the draperies turned out from his shop are of the best workmanship. The cutting is accurate, the best of materials are used and as a whole they present a most pleasing atmosphere, that is individual and attractive.

While the business of home decoration is oon which the public knows little about, it is a highly specialized business and the method of manufacture has improved with rapid strides and as a consequence is an important enterprise. Reliable service is an important feature of his business as it is a well known fact people always receive their work on time, and in this way Mr Gray has gained the confidence of the public.

Mr. Gray is an expert creator and decorator and thoroughly skilled workman, efficient and dexterous by reason of knowledge that comes from having mastered all the intricate technical problems of the profession and supreme in the prestige that comes from the hands of an expert decorator, has won to himself high standing in the business life of the South.

Mr. Gray conducts a consultory department and will be glad to answer any question pertaining to your home decorating problems, these inquiries will be answered either by mail or personal call, without cost to the client.

We are pleased to compliment him in this review and assure you that you will always get courteous treatment and high grade materials at the most reasonable prices.

WADES VETERINARY REMEDIES CORPORATION

1124 MAIN STREET — **TELEPHONE 1049**

Wade's Veterinary Remedies for Dogs and other small animals cover the whole range of diseases peculiar to them. Nothing in the entire line in any way is similar to other remedies on the market, but are successful scientific preparations developed in thirty years' experience by Dr. Wade, who has originated every formula we use. Mr. Wade's original investigations have resulted in medicines of more than ordinary merit. Remarkable success is shown for them wherever used.

All our remedies are prepared in our laboratories at Lynchburg, Virginia.

The particular feature provided for in all of the Dog Medicines prepared by us, is that nothing more can be required to put the dog in better order after the treatment is given. All of our remedies are complete as we can make them. The unusual success met with wherever they are used justifies this. Cheaper medicines are on the market. But when the costs of manufacture advertising and distribution are all taken out of a very cheap price there is really very little left in that particular medicine for the poor dog's benefit. We feel that the dog's real needs must be considered fully by all means. And for my part I would rather be known as a man with this end in view that all our medicines have been prepared.

Wade's Eczema Treatment

Is a real discovery among Dog Medicines. It is the most effective remedy we have obtained in this difficult disorder and it is the result of years of scientific tests in endeavoring this disorder entirely from the dog's system.

Wade's Remedies for Dogs and Small Animals

Dog Health Medicine
Eczema Treatment
Running Fits Remedy
Canine Laxative

Vera

R. W. Abbitt has been sick a few days with the flu.

The B. Y. P. U. of New Hope Church, is planning and getting up a play, "He's My Pal."

Mr. Clint Casey, of Amherst was down Saturday at hunt with Robert and Ber Abbitt.

Little Aris Meryee Covington is sick.

Mrs. Dabney Anderson and Mrs. Tom Robertson spent Monday with Mrs Sadie Covington.

Mrs. Willie Conner, who has returned from Virginia Baptist Hospital is getting on all right.

Mrs. Helen Gunter, of Lynchburg, spent the week-end with her mother, Mrs. W. H. S. Barlow.

Little Frances Gunter is sick.

Burk Casey and Hartenee Casey spent Saturday with their grand mother,, Mrs. Rosa Abbitt.

Herbert Abbitt, who was working on the road Saturday, was hurt with a saw.

Mrs. Tommy Jennings has come to Mr. and Mrs. Burnett's to spend two weeks.

Little Burnett Smith is sick with a swelling on his neck.

Ruth Morris spent the night with Grace Burnett Tuesday night in order to practice for the B. Y. P. U. play.

Miss Anna Jordan and sister, Mrs. Ruth Ferguson spent Saturday with Mrs. W. H. Connor.

Mrs. Bennie Jordan visited Mrs. Tom Connor last week.

Letherine Wooldrige, who has been sick has improved.

The Campers at "Camp Love Nest" Vera have fine turkies.

Willie Nunley, who has been ill has recovered.

The mill at Vera is progressing fine. Judging from the floor space the people won't lack bread.

Stonewall

First Grade: Thomas Jennings, Nellie Jennings, Nadine Burnette, Clayton Drinkard, and Marguerite Whitten.

Second Grade: Frances Drinkard, and Virginia Beard.

Fourth Grade: Faye Stratton, Mary Mays, and Eleanor Jennings.

Fifth Grade: Zelia Beard.

Sixth Grade: Louise Turnes, and Lyle Blankinship.

Seventh Grade: Irent Beard.

Electrol Sales & Heating Corporation

510 FIFTH STREET

Located in Lynchburg, at 510 Fifth Street. If you are interested in Automatic heat, they will be glad to demonstrate their product under actual heating conditions and explain the reason why they chose the Electrol All Electric Oil Burner to offer to the public.

The following article is a frank and honest discussion of all automatic oil burners in general.

Progress is always slow, advancement travels only in the wake of dissatisfaction. The old fashioned stove was not invented until centuries of suffering matured the idea, that brought relief from the open fire. Then after many years comes the centralized heating plant in the cellar instead of stoves in every separate room.

And the automatic oil burners are not invented until humanity rebelled against cellar serfdom, dirt, fluctuating temperature and coal strikes.

The automatic oil burner has been called "One of the greatest inventions."

In measuring its benefits to man, the automatic oil burner has been compared with the electric light. The electric light saves the eye sight and lengthens the hours of play. The automatic oil burner saves health, eliminates drudgery and dirt and makes life more enjoyable.

The automatic oil burner is a simple device for mixing approximately 14,000 parts of air with one part of furnace oil, the mixture being atomized and burned in the heating plant, thereby turning into room temperature the 19,5000 heat units which are in every pound of oil.

An automatic oil burner will give you the fuiva heating essentials that you must have in order to enjoy a perfect heating service.

Here they are:
1. Positive control of heat.
2. Comfort from even heating.
3. Cleanliness.
4. Perfect safety.
5. Economy.

Coal cannot give you these heating essentials. It is beyond human skill to fire a furnace with coal so that the temperature in your home will not fluctuate.

Cleanliness is not one of coal's virtues nor is coal entitled to any honor for economy. And any fire insurance company knows that coal's boasted safety is dwarfed by a good automatic oil burner.

Most, if not all, oil burners sold in this territory are listed as standard and bear the label of the Underwriters' Laboratories approval.

The Underwriters' Laboratories is an institute for the testing of all products that have any bearing on fire hazards. It is maintained without profit by the National Board of Fir Underwriters. The great value of the services of the Laboratories cannot be overrated, their labors in protection of life and property have a very beneficial effect on our national prosperity.

Nearly every oil burner prospect asks this question: "How many gallons of oil will I burn?" Who would ever think of grabbing a coal man by the collar and demanding, "Will you guarantee that I can heat my house with so many tons of coal?" He would laugh, thinking it was a joke.

But the oil burner people are more considerate, they appreciate that everyone wants to know what a thing is going to cost, consequently they always give only approximate figures.

There are so many factors to consider, the type of building plant, its efficiency, the construction of your house, number of windows, exposures, etc., that it is impossible to lay down a rule. Generally it is estimated that from 120 to 200 gallons of oil equal one ton of coal. You see the wide range. One reason for this is because the relative heating efficiency of oil burners varies greatly according to the type of burner.

An automatic oil burner may save you money over coal —and it may cost you a few dollars more. But you would never weighs a few dollars against these overwhelming advantages: Cleanliness, heat, abundant, healthful, even heat.

Another question that comes up: "Will I be able to get Oil?"

Isn't it queer that no one asks this question when they buy an automobile?

Not one-third of gasoline and napths combined are distilled from a gallon of crude oil. So it is evident that as long as we have gasoline we will have gas oil, the oil a burner burns.

Geologists tell us that our grandchildren would be wise to be asking the question: "How long will oil last?"

Would be very glad to make some connection with some reliable party in this vicinity to promote our sales.

After carefully investigating the above firm, we want to highly recommend them for real service in building supplies, which means Cement, Sand, Stone, Plaster, Lime, Calcine, Keen Cement—in fact they carry everything with which to build except Lumber and shop work.

In addition to that, they carry Reinforcing Steel in sizes from ½ in. to 1 in. and Steel Angles in sizes from 3x3 1/2 to 6x6 in., not to mention Reinforcing Wire Mesh. Steel Windows for basements, Side Walls and Casements for residences, Steel Columns to be used instead of brick or concrete (which are not only stronger and take up less space, but are cheaper), Fireplace Dampers Cleanout Doors, Ash Pit Dumps—in fact all steel supplies.

They have lately attached to their organization an engineer with years of building experience (Mr. Campbell King, Jr., of Macon, Ga., a graduate of Georgia Tech), who will do your engineering for you, which means figure out your loads for girders, etc., and who has charge of work of a technical nature, such as high temperature fire brick work, industrial floors, floor coloring, etc.

They also maintain a tremendous stock of Terra Cotta Pipe for well lining and sewer Pipe. We find that their service is very satisfactory manner.

Schewel Furniture Company

1201 MAIN STREET — **TELEPHONE 129**

Has merited the position the store has attained as one of the leading home outfitting firms of this section and because of unequaled quality and metropolitan service rendered during the time it has merited the large custom it receives.

Individuality, both in stock and service, is the keynote of the substantial progress of this well known firm which has been serving the people of this community for some time. The standard lines are carried yes, ones known the world over. Dining room furniture of a distinction and quality unsurpassed.

It makes no difference whether it is a room you desire to furnish, the whole house or just a piece or two that you want, you can secure it here.

This firm quotes lower prices than the average store upon the highest quality of merchandise.

They will find character, personality and romance all combined in their suites. Distinctiveness in design, woods and finishes that are found in no other makes. They are showing a large assortment.

This firm is one of the valuable commercial assets of the community for it brings thousands of dollars which would go to some other trade center were this progressive, complete and up-to-date concern not serving the people in such a satisfactory manner. There is nothing that adds more greatly to the progress and prosperity of a community than progressive business men who appreciate the necessity of keeping up with the time in the selection of their stock and the manner of operating their business.

Schewel Furniture Company is one of the valued commercial assets in this section-progressive, complete and up-to-date, serving the public in a very satisfactory manner.

Marie Beauty Shoppe

MEDICAL ARTS BUILDING — **TELEPHONE 3810**

715 Church Street

This establishment is now under the supervision of Miss Moton, formerly of the Marinello Shop, Lynchburg, who is well trained in the features of the beauty parlor profession, ably assisted by Mrs. Accorsini and Mrs. Ida Mae Johnson. The work of this shop is now on a plane that will insure patrons the best in beauty work.

This progressive shop is open from 9 A. M. until 6 P. M. Engagements can be made in advance. Phone 3810.

Appointments receive courteous and prompt attention, for it is considered a pleasure to serve you at this well known shop. Telephone when in need of beauty parlor work, and you will be immediately listed with many satisfied customers, who are praising the prompt, reliable service

Marcelling, fine finger waving, permanent waving, pranoing, and facial treatments are features of the work done by these specialists, whose advice and service can be relied upon as they have made a special study and are adequately prepared in advanced methods of modern beauty culture.

The bob has demonstrated the art of beautification. The universal popularity of the bob has led to the adoption of other aids to personal adornment, including massages, wrinkle removing and tissue building. At this shop the work is in charge of skin specialists, whose practical experience and scientific knowledge are applied to remedy the gray-sagging lines and restore activity to the unhealthy muscles of the face. This scientific and facial treatments are the work of the Marinello Shop, Lynchburg, who is well versed in the methods of modern beauty parlor operation and burned in the heating plant, thereby turning into room temperature the 19,5000 heat units which are in every pound of oil.
